2012 CBCAP Grantees Meeting

April 16, 2012 ◆ Hilton Washington Hotel ◆ Washington, DC

1:00 – 2:30 pm **Combined Cluster Meeting** **International Center**

Collaborative Action: New Science to Inform and Advance Prevention and Child Welfare
Dr. Robert Block, President
American Academy of Pediatrics

The Adverse Childhood Experiences Studies demonstrated an association between adversities in childhood and adult health, mental health, and wellbeing problems. Newer science, evolving rapidly, has moved the field from association to actual causation. The presentation will relate how the brain and other body systems are affected by "toxic stress," and why the social determinants of health are related not only to disease and conditions, but also to the unsustainable health economics of the U.S. With this background, a discussion of the importance of prevention of adverse environments, and the realization that more optimal early childhood health, education, and well being can lead to the maximum return on investment and the development of resiliency during childhood.

2:30 – 3:00 pm **Break** **Concourse Foyer**
***Please consider visiting the Evidence-Based Home Visiting (EBHV) poster session in Columbia Hall 1 & 2 to learn more about these subcontractors and their accomplishments.*

3:00 – 4:30 pm **Telling the Prevention Story** **Georgetown East/West**

This session will follow a Three-B format; Bring, Brag and Borrow. We invite leads to bring materials, stories, and ideas related to "Telling the Prevention Story: sharing results to improve services, engage stakeholders and the community, promote public awareness, and garner support for prevention."

Our goal is to ensure everyone has the opportunity to share knowledge and resources with each other. If you have any materials related to the topic of Telling the Prevention Story, such as promotional materials, brochures, public service announcements, newspaper articles, reports and report templates, please bring at least one copy to display and, if possible, an electronic copy. You will have the opportunity to share your resources in small group BBB sessions. FRIENDS will be compiling an electronic set of your materials, accessible on the FRIENDS website, so we all can benefit from the combined wisdom and experience of our CBCAP colleagues.

4:30 – 5:00 pm **Closing Session** **Georgetown East/West**
Rosie Gomez, Office on Child Abuse and Neglect, ACYF, ACF

5:30 – 7:30 pm **Parent Networking Meeting** *(by invitation only)* **Columbia Hall 10**
