ATTACHMENT 1: CBCAP CONCEPTUAL FRAMEWORK

The purposes of the CBCAP program are: (1) to support community-based efforts to develop, operate, expand, enhance, and coordinate initiatives, programs, and activities to prevent child abuse and neglect and to support the coordination of resources and activities to better strengthen and support families to reduce the likelihood of child abuse and neglect; and (2) to foster understanding, appreciation and knowledge of diverse populations in order to effectively prevent and treat child abuse and neglect.

ATTACHMENT 2: Tentative Population Allocation of CBCAP Funds – FY 2021

<u>IMPORTANT NOTE</u>: The following figures represent our best estimate of what each state, Puerto Rico, and the District of Columbia will receive for the population portion of their grant award allocation. These figures are based on a 70 percent formula figure, census figures available, and an assumption that each of the Territories will receive the base amount of \$175,000. These figures could change if census figures are updated, if there are additional set-asides in the appropriation, or if state participation differs from what is predicted at this time. The amount of funds available and population fluctuations have impacted the population distribution amounts for most of the states over last year's estimated allocation.

For purposes of submitting the application, each state may use this amount when calculating its budget and determining the 20 percent matching funds obligation as set forth in section III-G-1 of the PI. Since this amount is only tentative, each state must submit a revised budget to OCAN (at CBCAP@acf.hhs.gov, to complete the application, not later than October 31, 2021. The revised budget must be based on the actual amount awarded to the state, as verified in the Grant Award letter. For those States providing matching funds in excess of 20 percent, if the excess amount meets the 20 percent requirement of the final grant award, such states do not need to submit budget amendments.

ATTACHMENT 3: Governor's Assurance Statement

COMMUNITY-BASED GRANTS FOR THE PREVENTION OF CHILD ABUSE AND NEGLECT PROGRAM (TITLE II OF THE CAPTA AMENDMENTS OF 2010 (P.L. 111-320))

GOVERNOR'S ASSURANCE STATEMENT

As Governor of the state of ______, I am providing the following assurance that I have designated to be the lead agency, administer the funds, and assume the obligations imposed by the terms and conditions of the Community-Based Grants for the Prevention of Child Abuse and Neglect a ward. I further assure that the lead agency will provide or will be responsible for providing--

- (A) Community-based child a buse and neglect prevention programs and activities designed to strengthen and support families to prevent child abuse and neglect composed of local, collaborative, public-private partnerships directed by interdisciplinary structures with balanced representation from private and public sector members, parents, and public and private nonprofit service providers and individuals and organizations experienced in working in partnership with families with children with disabilities;
- (B) Direction to an interdisciplinary, collaborative, public-private structure with balanced representation from private and public sector members, parents, and public sector and private nonprofit sector service providers;
- (C) Direction and oversight to the network through identified goals and objectives, clear lines of communication and accountability, the provision of leveraged or combined funding from federal, state and private sources, centralized assessment and planning activities, the provision of training, technical assistance, evaluation assistance and reporting and evaluation functions.
- (D) A demonstrated commitment to parental participation in the development, operation, and oversight of the community-based and prevention-focused programs and activities designed to strengthen and support families to prevent child abuse and neglect;
- (E) A demonstrated ability to work with state and community-based public and private nonprofit organizations to develop a continuum of preventive, family-centered, comprehensive services for children and families;
- (F) The capacity to provide operational support (both financial and programmatic) and training, technical assistance, and evaluation assistance to community-based child abuse and neglect prevention programs and activities designed to strengthen and support families to prevent child abuse and neglect, through innovative, interagency funding and inter-disciplinary service delivery mechanisms; and
- (G) Integration of its efforts with individuals and organizations experienced in working in partnership with families with children with disabilities, parents with disabilities and with the child abuse and neglect prevention activities of the state, and demonstrate a financial commitment to those activities.

ATTACHMENT 4: State Lead Agency Assurance Statement

COMMUNITY-BASED GRANTS FOR THE PREVENTION OF CHILD ABUSE AND NEGLECT PROGRAM (TITLE II OF THE CAPTA AMENDMENTS OF 2010 (P.L. 111-320))

STATE LEAD AGENCY ASSURANCE STATEMENT

STATE:	LEAD AGENCY:

On behalf of the above named agency, which has been designated by the Governor of the state to be the lead agency responsible to administer the funds and assume the obligations imposed by the terms and conditions under the Community-Based Grants for the Prevention of Child Abuse and Neglect award, the following assurances are provided:

- (A) A description of the inventory of current unmet needs and current community-based and prevention-focused programs and activities to prevent child abuse and neglect, and other family resource services operating in the state, will be included with the Annual Performance Report (and subsequent year's reports);
- (B) Funds received under this title will supplement, not supplant, other state and local public funds designated for the start-up, maintenance, expansion, and redesign of community-based and prevention-focused programs and activities to strengthen and support families to prevent child abuse and neglect;
- (C) The state has the capacity to ensure the meaningful involvement of parents who are consumers and who can provide leadership in the planning, implementation, and evaluation of the programs and policy decisions of the applicant agency in accomplishing the desired outcomes for such efforts; and
- (D) The lead agency will provide the Secretary with reports at such time and containing such information as the Secretary may require (and every year on the same date for the life of the grant).

DIFFERENTIATING BETWEEN LEVERAGED AND MATCH FUNDS FOR PURPOSES OF THE CBCAP PROGRAM

Leveraged Funds are those funds that were received by the CBCAP lead a gency from private, state, or other nonfederal sources during the prior Federal Fiscal Year (FY), and obligated and spent by the CBCAP lead agency during that same time frame to provide the types of services and activities for which the actual CBCAP federal funds may be used.

All funds leveraged by your date and claimed when submitting the CBCAP application must have been:

- Leveraged by your state from private, state, or other <u>non-federal</u> sources during the prior Federal Fiscal Year.
- **Directed** through the CBCAP lead a gency submitting the application. (Note: Leveraged funds must be controlled by the CBCAP lead a gency submitting the application. If the state lead agency has changed and the current lead agency submitting the application is not the same lead agency through which the leveraged funds were directed and obligated or spent in the prior Federal Fiscal Year, the current lead agency cannot submit a leveraged funds claim. In that case, your total grant a ward would be the amount determined by population of children under 18 years of age).
- **Budgeted and spent** (spent, obligated, restricted) during the prior Federal Fiscal Year in supporting services and activities consistent with a network of community-based and prevention-focused programs and activities designed to strengthen and support families to prevent child abuse and neglect.
- Used (spent, drawn down) during the prior Federal Fiscal Year to support services and activities for which the actual CBCAP Federal grant funds may be used.

Only funds that have not been used to leverage additional Federal funds under any other program may be claimed as leveraged funds for this program. State and nonfederal funds that are being used to meet the maintenance of effort, match or other cost-sharing requirements for other Federal funding are <u>not</u> eligible to be claimed. **Match funds** are those funds from non-federal sources that are included in the current application budget to supplement the federal portion of the grant and must amount to at least 20 percent (in cash, not in-kind) of the current application grant a ward for activities under this title.

All Funds included as match funds in the current application budget **must** be:

- **Received** by the CBCAP lead a gency from private, state, or other **<u>non-federal</u>** sources for use during the current federal Fiscal Year in which the application is being submitted.
- **Budgeted** for the current Federal Fiscal Year in supporting a network of community-based and prevention-focused programs and a ctivities designed to strengthen and support families to prevent child abuse and neglect.
- Used during the Federal Fiscal Year in which it was applied to supplement the federal portion of the grant to support services and activities for which the CBCAP federal grant funds may be used.
- In cash, not in-kind, and a mount to at least 20 percent of the grant award. (Note: There is no requirement to include more than a 20 percent match of non-federal funds in the budget. However, if the state has a sizeable leveraged funds claim that ensures their grant a ward will be greater than the population allocation, the state may wish to figure in a higher percentage for match so that they do not have to submit a budget a mendment in October.

The state may claim the money that it used for match in Federal Fiscal Year 2020 as part of their leveraged funds claim for their Federal Fiscal Year 2021 application, as long as this money is not leveraged to claim for any other source of federal funds, the funds were directed through the lead agency, and the lead agency has remained the same for FY 2020 and FY 2021.

activities neglectin protective protective knowledg social and with ment family's lin increase environm	Preventive direct services under CBCAP are beneficial activities aimed at preventing child abuse and neglect. Such activities may be directed at the general population or specific populations identified as being increased risk of abusing or neglecting their children. The primary focus of these activities are to better strengthen and support families by increasing protective factors and reducing the risk factors that can reduce the likelihood of abuse or neglect. The six primary protective factors to be increased by the preventive direct services include: nurturing and attachment, parental resilience, knowledge of parenting and of child and youth development, social connections, concrete supports for parents, and social and emotional competence of children. The primary risk factors that may be addressed include caregiver problems with mental health, substance abuse, and family and community violence, and other negative conditions in the child and family's life situation. Ultimately, the goals of these activities are to increase the strength and stability of families, to increase parents' confidence and competence in their parenting abilities, to afford children a stable and supportive environment and to increase the safety, permanency and well-being of children and families. Such activities do not include information and referral, one-time public education events, or public awareness campaigns.

These activities may be a one-time event or a series of public education and information assistons. These activities may also include provide information and referral to the community through the telephone, in-person, or through a mail out or website. Some examples of public awareness, public education and referral activities include: Blue Ribbon or other Child Abuse Prevention Month campaigns, conducting a public information fair at a local festival, presenting information about child abuse prevention to various agencies or the general public, television or radio advertisements, newsletter mailings, parent support hotines, information and referral websites, etc. The data should reflect the individuals who received or were exposed to the public awareness or public education activities funded by the CBCAP program. Direct services funded by CBCAP should reflect the federal CBCAP funds plus the amount for the state's required 20 percent match as reflected in their application for this year's funding. (Note: Some states include more than a 20 percent match in their application). Since a number of states blend the CBCAP with other federal, state and local funding, these states will need to indicate the total. The items in this section request data on recipients of public awareness or public education activities is requested. Since it is difficult to provide an exact number of individuals who may have received of the public awareness or public education activities, states are advised to provide the most accurate estimate based on the number of participants that reasonably received these activities. For example, the total can include the number of participants in public education activities aimed at preventing child abuse and ne	positive of include p available may also primary fo providing understal involvem	levelopment of parents and the promotion of child abuse and neglect prevention activities. These activities can ublic education and outreach, information and referral regarding community and social services that are for families, and public awareness campaigns. Such activities are usually directed at the general population but be targeted for specific populations or communities identified at increased risk of abuse or neglect. The ocus of these activities are to better strengthen and support individuals, families, the community and society by information about available family support and prevention resources in the community, increasing the public nding of the importance of the prevention of child abuse and neglect and increasing community ownership and ent in prevention activities. Over the long term, it is anticipated that these activities contribute to increasing the		
abuse and neglect during the year. These services may be directed to the general population or at specific populations identified as being at increased risk of abuse or neglect. These activities may be a one-time event or a series of public education and information sessions. These activities may also include provide information and referral to the community through the telephone, in-person, or through a mail out or website. Some examples of public awareness, public education or information and referral activities include: Blue Ribbon or other Child Abuse Prevention Month campaigns, conducting a public information fair at a local festival, presenting information about child abuse prevention to various agencies or the general public, television or radio advertisements, newsletter mailings, parent support hotlines, information and referral websites, etc. The data should reflect the individuals who received or were exposed to the public awareness or public education activities funded by the CBCAP program. Direct services funded by CBCAP should reflect the federal CBCAP funds plus the amount for the state's required 20 percent match as reflected in their application for this year's funding. (Note: Some states include more than a 20 percent match as reflected in their application for this year's funding. (Note: Some states include more than a 20 percent match as reflected in the total funding from all other sources, including CBCAP, and indicate the percentage of CBCAP funding that is part of the total. The items in this section request data on recipients of public awareness or public education activities conducted under the CBCAP program. Direct services estimate based on the number of participants that reasonably received these activities. For example, the total can include the number of participants in public education activities, states are advised to provide the most accurate estimate based on the number of participants that reasonably received these activities. ATTACHMENT 7: Information and Resources to Promote Collaboration and Coordination with Other Child and Family Support Systems

The information provided in this attachment includes descriptions of programs, services, and initiatives that may have similar target audiences, purposes or goals as the state's CBCAP programs. CBCAP lead agencies are encouraged to review the information provided on the programs to consider opportunities to collaborate to enhance the continuum of prevention services and resources implemented to strengthen and support families and communities in their states. CBCAP lead agencies who are currently partnering or plan to partner with the programs, services and initiatives below should include information on the collaborations in their applications and annual reports. In addition, the Children's Bureau has issued a number of Program Instructions and Information Memorandums to promote family support and prevention efforts. For more information and updates on these laws and policies, CBCAP state lead agencies are encouraged to visit: https://www.acf.hhs.gov/cb/laws-policies/whats-new.

Federal Programs and Agencies for Potential Collaboration

Administration for Community Living

The U.S. Department of Health and Human Services' Administration for Community Living advocates across the federal government for older adults, people with disabilities, and families and caregivers; funds services and supports provided primarily by states and networks of community-based programs; and invests in training, education, research, and innovation. For more information on this program, visit their website at https://www.acl.gov/programs.

Centers for Disease Control and Prevention

The Centers for Disease Control and Prevention is a national public health institute in the United States. For more information, visit: <u>https://www.cdc.gov/</u>.

Child Care Programs

Child Care programs support low-income working families by providing access to affordable, high-quality early care and after-school programs. For more information, visit <u>http://www.acf.hhs.gov/programs/occ</u>.

Child Support Enforcement Access and Visitation Programs

Funds are provided to enable states to create programs that support and facilitate access and visitation by noncustodial parents with their children. For more information, please visit the ACF Office of Child Support Enforcement at <u>https://www.acf.hhs.gov/css/grants/grant-updates-results/access-and-visitation-mandatory-grants</u>.

Early Childhood Comprehensive Systems (ECCS) Program

Early Childhood Comprehensive Systems are partnerships between interrelated and interdependent agencies/organizations representing physical and mental health, social services, families and caregivers, and early childhood education to develop seamless systems of care for children from birth to kindergarten entry. For more information, visit <u>https://mchb.hrsa.gov/earlychildhoodcomprehensivesystems</u>

Office of Early Childhood Development

The Office of Early Childhood Development acts as a catalyst to create a collective impact and support the early learning and care of our nation's children and their families. For more information, visit: <u>https://www.acf.hhs.gov/ecd/about-0</u>.

Early Intervention Programs through IDEA Part C

The Program for Infants and Toddlers with Disabilities (Part C of IDEA) is a federal grant program that assists

states in operating a comprehensive statewide program of early intervention services for infants and toddlers with disabilities, from birth through two years of age, and their families. For more information, visit http://ectacenter.org/.

Head Start & Early Head Start Programs

Head Start is a federal program for infants, toddlers and preschool children from low-income families. Head Start programs prepare America's most vulnerable young children to succeed in school and in life beyond school. For more information, visit the Early Childhood Learning and Knowledge Center at https://eclkc.ohs.acf.hhs.gov/.

Maternal and Child Health Bureau, Title V Program

The specific purpose of the Title V Block Grants to the states is the creation of federal-state partnerships that target the needs of low income or at-risk expectant and new mothers and their children. For more information, visit <u>https://mchb.hrsa.gov/maternal-child-health-initiatives/title-v-maternal-and-child-health-services-block-grant-program</u>.

Social Services Block Grant Program

The Social Services Block Grant is a flexible funding source that allows states and territories to provide essential social services to address their populations' needs. For more information, visit http://www.acf.hhs.gov/programs/ocs/programs/ssbg.

Temporary Assistance to Needy Families

The Temporary Assistance for Needy Families program is designed to help needy families achieve self-sufficiency. For more information, visit <u>https://www.acf.hhs.gov/ofa/programs/tanf</u>.

Office on Trafficking in Persons

The Office on Trafficking Persons develops anti-trafficking strategies, policies, and programs to prevent human trafficking; builds health and human service capacity to respond to human trafficking; increases victim identification and access to services; and strengthens health and well-being outcomes for survivors of human trafficking. For more information, visit <u>https://www.acf.hhs.gov/otip</u>.

Community-Based Programs for Potential Collaboration

Faith-Based and Community Organizations

Faith-based and community organizations often operate very close to the daily lives of individuals and families in need and thus can reach needy individuals and families that government cannot. For more information about the HHS Center for Faith-Based and Neighborhood Partnerships, visit https://www.hhs.gov/about/agencies/iea/partnerships/about-the-partnership-center/index.html.

Respite Care Programs

Respite care programs provide short-term, in-home or out-of-home nonmedical childcare by providing families or primary caregivers with periods of temporary relief from the pressures of demanding childcare routines and lessens the intensity of severe family stress. Respite services are included as services for funding under the CBCAP program (See sections 205(3)(A) and 208(3)). For information about these programs in your State, visit the ARCH National Respite and Resource Center website at <u>http://www.archrespite.org</u>.
