<tr>
<td><strong>Uses of Information:</strong></td>
<td>The BSID-II was designed for use in identifying areas of impairment or delay, developing curricula for interventions, and assessing the outcome of such interventions.</td>
</tr>
<tr>
<td><strong>Environment:</strong></td>
<td>Clinical setting, school setting</td>
</tr>
<tr>
<td><strong>Description:</strong></td>
<td>BSID-II is an individually administered examination that assesses the developmental functioning of infants and children ages 1 year to 42 months.</td>
</tr>
<tr>
<td><strong>References:</strong></td>
<td>Dunst (1998), Bayley (1993), Black et al. (1999)</td>
</tr>
<tr>
<td><strong>Cost:</strong></td>
<td>$950.00-$1,100.00. The BSID-II Introductory Kit has a listed price of $1,100.00. The kit includes the BSID-II manual; stimulus booklet; 25 each of the mental scale record forms, motor scale record forms (with tracing design sheet), and behavior rating scale record forms; 8 visual stimulus cards; map; and a carrying case.</td>
</tr>
<tr>
<td><strong>Availability of Test Manual:</strong></td>
<td>Yes. The manual provides instructions on administering and scoring the BSID-II and administration of the scales to children with physical or perceptual impairments. It also provides case studies that serve as examples of how information from several sources may be integrated, interpreted, and presented.</td>
