Family & Community

Having a parent in prison is considered an Adverse Childhood Experience (ACE), and children of incarcerated parents are exposed to nearly five times as many other ACEs as their counterparts without incarcerated parents.

### Children affected by incarceration - forgotten victims

Carry stigma of shame

Loss of financial support

Poor school performance

Self-harm & Suicidal tendencies

Increased risk of abuse

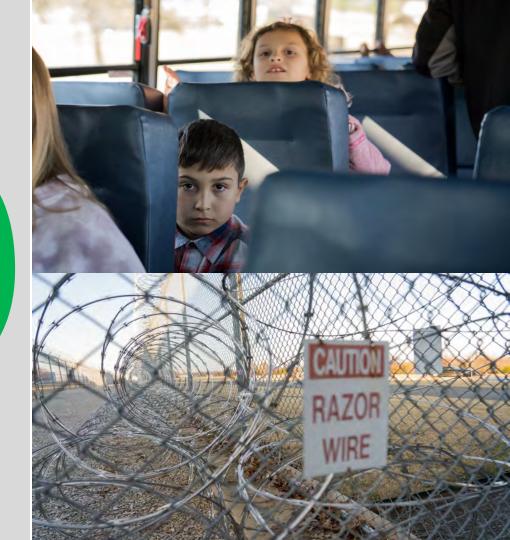

Increased risk of neglect

Children affected by incarceration are three to seven times more likely to end up incarcerated themselves

50% of the children we transport to prison to see mom also has a father incarcerated

### Girl Scouts are BUILDERS!
