Parent Stories

Sharing the Journey: Voices of Parent Leaders 2022 contains 14 new stories, with one in Spanish. These vignettes may be used to increase public awareness or as tools to support training for staff, network members, partners, parents, and other key prevention stakeholders about the value of meaningful parent engagement and involvement.

Online Learning

FRIENDS National Center is pleased to announce that we have updated our **Protective Factors** Course within our Online Learning Center. While you're there, check out our **CBCAP-101 and 102** to learn more about community-based child abuse prevention and FRIENDS National Center.

PMI Podcasts

Prevention Mindset Institute: Embracing Prevention Across Systems (PMI) podcast which explores experiences with transforming the child welfare system is now available in the FRIENDS Media Library! Give this two-part podcast a listen to hear three parents interview Texas and Ohio's team leads about their efforts to address supportive services and early intervention in the court system, encouraging help seeking without shame, and collaborating with parents as full partners.

Culturally Effective Organizations

The **Framework for Culturally Effective Organizations** is similar to the multi-dimensional processes involved in any effective systems change effort. These resources can be easily adapted to application by state lead agencies, their funded programs and other organizations working to strengthen families.
